The first release of the software was version 2.0 which was released in 1999. After the software was sold to a private company it was renamed to "Predictive Business Solutions" (PBS). PBS is still a part of Freelancer.com which is part of HP Limited (UK). In the year 2001, the company changed its name to "Electronic Planning Associates" (EPA) in the UK and then in 2003 to "EP-I Business Solutions." In 2007 the company
